Good day Captain,

1. Regret the cargo options off Northern Europe are not good.
2. Therefore we request you resume your voyage towards North Coast South America (NCSA) at eco-speed. As a destination point, we suggest MM0.1 / Boca Grande, Orinoco River.
3. Please update your ETAs basis Orinoco River.
4. Please also advise each day a possible ETA SW Pass / Mississippi River from your daily noon position, so we have an alternate ETA for US Gulf business.

Please get back underway and update your ETA Orinoco River, at your convenience...

Please confirm received / understood.

Many thanks and best regards,

Christopher Hughes
